

Hello,

My name is John Leland, I am the Art Director at RADD3, a video game studio based in San Francisco, California. I am writing to recommend Sergio Garcia Poderoso for an employment position.

Sergio has been an integral part of the art team at RADD3. He possesses a natural artistic talent and passion for all things art and games as well as the technical skill and software knowledge to turn that passion into compelling games. When it came to creating game assets he could be counted on to deliver high quality work on tight schedules.

He knows the technical implications of how his work affects the rest of the pipeline and was tasked with taking many assets from concept to implementation in the game engine. In addition to technical skill he has always been punctual and hardworking. Sergio is a pleasure to work with and comes highly recommended.

Regards,

John
